MUSIC PERFORMANCE

Duration: Semester Unit

DESCRIPTION

Music Performance aims to equip students with skills for both solo and group performances. This unit focuses on providing students with the opportunity to develop and enhance their practical knowledge of their instrument of choice. They will also develop their aural and music theory skills. Students will analyse different pieces of music and use their new skills to create their own composition. Both independent and group work skills will be required in Music Performance. The use of ICT will be incorporated throughout the students' learning in this unit. This elective introduces students to skills needed for VCE Music Performance.
