

Campus Cleanable Area Report

Contents

Description

This workbook titled the 'Cleanable Area Report' is based on data extracted from the VSBA Asset Information Management System (AIMS) which holds details of all school buildings and rooms shown in the latest school layout plans (SAMS Plans). The workbook lists detailed building and room information for each campus and provides a summary of total cleanable area, total entitled cleanable area and the split into how much cleanable area is funded at the 'Normal Rate' and at the 'Low Rate'.

Tabs

Info	Background information to data contained in this 'Cleanable Area Report' spreadsheet.
Summary	Summary of cleanable area figure for a campus , including calculation of normal rate and low rate area.
Buildings (Pivot)	A pivot table of detailed room data contained in the 'Room Details' tab provide summaries of entitled cleanable area by building.
Room Details	Detailed building and room data with a flag to indicate if the room is eligible for cleaning according to the cleanable location schedule.
Change since the last cycle	If you disagree with the information please visit this link or alternatively contact your regional PPN. Once we receive endorsement we will action with 48 hrs. https://www2.education.vic.gov.au/pal/cleaning/policy

Useful Links

Latest school layout plans (SAMS Plans) and cleanable area reports can be downloaded from the School Facilities Profile (SFPW) website
[School Facilities Profile Website](#)

Frequently Asked Questions

Q. When was this report run and how often are the reports updated?

A. The date the building and room data was extracted is shown on the top few lines of the Summary sheet (cell B5). This report will be updated periodically to reflect the latest data held in the VSBA Asset Information Management System.

Q. What do I do if I notice there are buildings or rooms not shown in the SAMS Plans or listed in the cleanable area report ?

A. If changes to your school layout plans (SAMS Plans) are required or you notice there are buildings or rooms missing from the detailed location/room list, download your latest SAMS Plan from the SFPW website, manually mark the areas that have changed or are missing, scan and forward in an email to the VSBA CAD Team at **SAMS@edumail.vic.gov.au** where your request will be prioritised.

Q. I have already notified the VSBA CAD team about building and room changes at my school so why do they still do not appear in the reports and school layout plans?

A. While VSBA endeavours to turn around changes as quickly as possible, it may take a few weeks for changes to appear in the school layout plans due to the time required to obtain architectural plans and other documentation which confirm the exact changes and building and room measurements.

Q. How are the areas eligible for funding at the 'Normal Rate' and at the 'Low Rate' calculated?

A. School enrolments are used to calculate the total entitled cleanable area for each school/campus according to particular enrolment bandings. Total cleanable area up to or equal to that entitlement area figure is funded at the 'Normal Rate'. Any total cleanable area over and above the entitled cleanable area is funded at the 'Low Rate'

Q. I still have a concern about my school's cleaning contract, areas that are defined as cleanable or how 'Normal Rate' and 'Low Rate' areas are calculated, who can I contact?

A. Please contact the VSBA Cleaning Unit at **cleaning@edumail.vic.gov.au** or phone 1300 842 754

Cleanable Area Report

Colac Secondary College

Campus Cleanable Area:

Data as at 31st July 2026

Campus Ref:	01886401
School:	Colac Secondary College
Campus:	Colac Secondary College
Campus Type:	Gov Schools - Secondary
School No:	8864
Campus No:	01
Total Floor Area:	19,569
Total Cleanable Location Area:	9,444
Total Cleanable Exception Area:	0
Total Cleanable Area:	9,444

Normal Rate/Low Rate Area:

Campus Type	Gov Schools - Secondary
Primary Enrolment (2026 Confirmed)	0.0
Secondary Enrolment (2026 Confirmed)	489.0
Entitled Cleanable Area Primary	0
Entitled Cleanable Area Secondary	3500
Total Entitled Cleanable Area	3,500
Total General Exception Area	0
Total 'Normal Rate' Area	3,500
Total 'Low Rate' Area	5,944
